

## **Zest Care Child Safe Statement**

**These are our rules for keeping children safe.**

We will **strive** to make sure that children are protected.

**Strive** means to try very hard.

We will give children a safe space to be themselves.

We will make sure that children feel safe and supported.

We do not accept child abuse.

We will work to reduce any risks.

We will:

- Listen to children.
- Listen if someone **alleges** abuse. We will take the correct next steps.

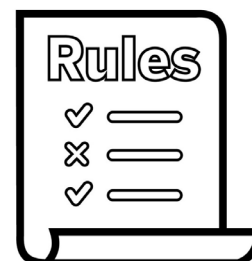

**Allege** means to speak out or claim something.

- Act quickly if we hear about harm or abuse.

- Have rules in place that will protect children.

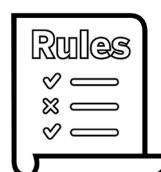

- Tell the **authorities** if we are worried about a child.

**Authorities** are important people who can help.

- Follow the same rules for everyone.

- Teach our staff so they know to do the right thing.

We will strive to make sure that children from all backgrounds are safe.

We will support all children to **flourish**.

**Flourish** means to grow and be happy and healthy.

These rules will be important to us. Our staff will follow them.
